While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we give no warranty, expressed or implied, as to description, purity, productiveness, variety or any other matter of any seeds, plants or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

OROL LEDDEN

**W**E ARE plant-growers and not plant-dealers. Every plant we send out is grown by us on our Sewell Farms. Only first-class plants raised from carefully selected seed will be sent out.

We ship annually thousands of mail orders to all states east of the Mississippi River. The bulk of our orders go into New Jersey, Pennsylvania, New York, Delaware, Maryland, Ohio, Virginia, and the New England States. Our careful packing, insuring good condition of plants, gives our customers the best satisfaction.

We have five large greenhouses heated by hot-water heat for early plants. These houses are devoted to growing pepper, eggplant, and tomato plants. Also, we have 1200 sash for coldframe beds for spotting or growing plants. The greater part of our plants are hardy, field-grown, planted and farmed by machine in 12-inch rows. These field-grown plants are strong and healthy, raised from the highest grade seed, and will give the best satisfaction.

All plants shipped will be carefully packed in moss, in cartons, boxes, or crates and sent by Parcel Post or Express.

We are located in our Stucco Store, on concrete road, opposite Sewell Station, 12 miles below Camden on the Pennsylvania-Reading Seashore Lines to Atlantic City.

We welcome customers and friends at our farms and shall be glad to show our plants and seeds. To come by automobile—Camden or Gloucester to Woodbury to Mantua, left 2 miles to Sewell. From South Jersey

points, come by way of Glassboro, take Woodbury road, and turn to left at Sewell. Roads are concrete.

## TERMS

Cash must accompany all orders; otherwise, goods will be shipped C. O. D.; a 25 per cent deposit must accompany all C. O. D. orders of plants. Send Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

We guarantee all plants to be grown on our Sewell Farms. We grow plants from the best seed obtainable, and no seed that we know is of poor germination or inferior in any way is allowed to be sold.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can

afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants, and bulbs pure and reliable, we give no warranty, express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalogue are subject to change without notice.

**OROL LEDDEN & SONS**

## Safe Delivery Guaranteed

All plants and seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign, and mail to us at once, and more plants or seeds will be forwarded or money refunded.

# LED DEN & SONS' VEGETABLE PLANTS

Cabbage, Allhead Early

## Beet Plants *Plant May 10 to July 1*

**Crosby's Egyptian.** One of the most popular early Beets, highly desirable for table use. The roots are dark blood-red, globe-shaped, and are very convenient for bunching.

**Detroit Dark Red.** Deep maroon or blood-red. A second-early variety excellent either for bunching or baskets.

Postage prepaid: 20 cts. for 25; 50 cts. per 100; 80 cts. for 200; \$1.50 for 500; \$2.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.50 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.50 per 1,000.

## Broccoli *Plant May 10 to August 15*

**Christmas Calabrese.** A heavy-producing variety. Set plants in May for early; July and August for late.

Postage prepaid: 25 cts. per doz.; 60 cts. per 100; 95 cts. for 200; \$2.00 for 500; \$3.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$2.00 per 1,000; 5,000 or more, \$1.50 per 1,000.

At our farms: 10 cts. per doz.; 30 cts. per 100; \$1.50 per 1,000.

## Brussels Sprouts *Plant May 10 to August 1*

**Long Island.** Fine, sure-heading type producing dependable crops of firm, shapely little heads of exactly the right size.

Postage prepaid: 20 cts. per doz.; 55 cts. per 100; 90 cts. for 200; \$1.50 for 500; \$2.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.75 per 1,000.

At our farms: 10 cts. per doz.; 30 cts. per 100; \$1.50 per 1,000.

## Cabbage Plants *Plant May 10 to August 10*

Every year we grow large fields of Cabbage plants for kraut packers and farmers. We have shipped as many as 1,500,000 Cabbage plants in five days. Several sowings are made throughout the season in order to have plants the right age at any time during the season. We make it a point to have as healthy plants as possible and have all the leading varieties. We would advise gardeners to set out Cabbage plants two or three times—early varieties in May, second-early or late in June, late varieties in July.

**Allhead Early.** This is a great Cabbage and one of our best sellers. Head hard, slightly oval to flat in shape. One of the most used by kraut packers. We have sold millions of this variety to growers for kraut factories.

**Charleston Wakefield** (Large Wakefield). Similar to Jersey Wakefield except about one week later. Heads larger and not as sharply pointed.

**Copenhagen Market.** An extra-early, good, round-heading, hard Cabbage, about one week later than Golden Acre.

**Danish Ballhead.** Tall stem. A very hardy, sure-heading, heavy variety which has proved to be one of the best keepers. A desirable Cabbage for kraut or keeping.

**Danish Roundhead.** Short stem. Very good late variety. Heads are not quite as large as the Ballhead. Solid and also a good keeper. A good kraut variety.

**Early Flat Dutch.** Similar to Late Flat Dutch but earlier and smaller.

**Early Jersey Wakefield.** A very early, pointed-head Cabbage, compact and erect, with few outer leaves. Stem short; heads medium-sized.

**Glory of Enkhuizen.** Hard-heading, second-early, fine-grained. One of the best for kraut.

# We Specialize in Field-grown Vegetable Plants

## CABBAGE PLANTS, continued

**Golden Acre.** This is the most popular early variety. Heads are of good size, perfectly round, solid, and very uniform and compact, having few outer leaves, which permits close planting. We have a very good strain from a reliable grower.

**Late Flat Dutch.** Enormous, flat head. Should be planted early in July as it requires a full season to head hard. Best late variety and also best winter keeper.

**Marion Market (Resistant).** The heads are almost round and very solid. Early variety.

**Perfection Drumhead Savoy.** The crumpled-leaf variety, producing large heads. Should be planted in June, July, or August.

**Succession.** A second-early with roundish, slightly flat, solid head. Good kraut Cabbage.

**Surehead.** Large, popular, flat-head, late variety.

**Winnigstadt.** A good early variety. Very sharp-pointed heads. Used for early planting and also for planting late in July and August.

**Wisconsin Hollander.** Late yellows-resistant strain of Danish Ballhead. A good variety for storing or kraut packers.

**Wisconsin Red Hollander.** Hard-heading red variety.

Postage prepaid: 20 cts. for 25; 55 cts. per 100; 90 cts. for 200; \$1.40 for 500; \$1.90 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 1,000; 5,000 lots or more, \$1.00 per 1,000.

At our farms: 10 cts. per 25; 25 cts. per 100; 50 cts. for 500; \$1.00 per 1,000.

## Cauliflower *Plant May 10 to August 1*

**Early Snowball.** Best of all varieties for market growing because of its resistance to the heat which occurs in early summer.

Postage prepaid: 25 cts. per doz.; 60 cts. for 50; \$1.00 per 100; \$4.00 for 500; \$6.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$5.50 per 1,000.

At our farms: 10 cts. per doz.; 60 cts. per 100; \$5.00 per 1,000.

Celery, Golden Plume

Cauliflower, Early Snowball

## Celery Plants *Plant June 15 to August 15*

**Emperor or Fordhook.** Plants stocky and compact; stems thick, round and of fine quality. Fine for late fall use and winter storage.

**Giant Pascal.** Grows large and is the leading late variety. Stalks are broad, thick, and solid. Extra good eating Celery; very brittle.

**Golden Plume.** A self-blanching Celery developed from Golden Self-blanching. Has been pronounced by authorities to be the best early variety. Blanching quickly and is very healthy.

**Golden Self-blanching, Dwarf.** Very popular because of its earliness and ease of blanching. Leaf stalks are thick, solid and sweet.

**Ledden Golden Self-blanching.** Tall. The most popular and one of the best of all early varieties. For the past few years our stock has produced Celery of unexcelled quality and perfect growth. Everyone should raise this excellent variety. Stalks 26 to 28 inches tall, which blanch readily.

**Sanford Easy-blanching.** This good variety comes a little later than Golden Self-blanching and requires longer banking to blanch. Vigorous in growth and a splendid keeper.

**Supreme Golden.** New early strain of Golden Self-blanching. Very uniform, strong-growing type.

**White Plume.** An early Celery with beautiful white leaves in center. Blanching pure white. Liked by some better than Golden Self-blanching.

**Winter King.** A strong grower and one of the best keepers. Blanching white when banked.

**Celeriac (Turnip-Rooted Celery), Large Smooth Prague.** Used for the large turnip-rooted bulb. Grown the same as Celery.

Postage prepaid: 30 cts. for 50; 55 cts. per 100; 90 cts. for 200; \$2.00 for 500; \$3.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 1,000; 5,000 or more, \$1.00 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.00 per 1,000.

## Collards *Plant May 10 to August 15*

**Georgia or Southern.** An excellent green really improved by frost. Plants form large bunches of tender leaves.

Postage prepaid: 20 cts. for 25; 55 cts. per 100; 90 cts. for 200; \$1.40 for 500; \$1.85 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 1,000; 5,000 or more, \$1.00 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.00 per 1,000.

# All Shipments of Plants Carefully Packed in Live Moss

Pepper, World Beater

## Eggplant *Plant May 15 to June 30*

**Black Beauty.** The leading and best variety. Bears fruit earlier than other sorts. It is very popular because it does not lose its black color.

**PULLED SASH-GROWN PLANTS,** ready June 1 to July 15. Postage prepaid: 25 cts. per doz.; 75 cts. per 100; \$3.00 for 500; \$5.00 per 1,000. F.O.B. Sewell: 50 cts. per 100; \$2.00 for 500; \$3.50 per 1,000.

**FOR TRANSPLANTING TO COLDFRAME:** March 25 to May 1. \$3.00 per 1,000, f.o.b. Sewell.

**TRANSPLANTED,** ready May 10 to June 10. Postage prepaid. 60 cts. for 25; \$1.00 for 50; \$1.50 per 100.

**TRANSPLANTED,** ready May 20 to July 1. In 4-inch pots, at our greenhouses. 50 cts. per doz.; \$4.00 per 100; \$30.00 per 1,000, f.o.b. Sewell.

## Lettuce Plants *Plant May 1 to June 15*

**White Boston.** Very large, compact heads of light green leaves. Popular, early variety.

**Iceberg.** Medium size, crisp, compact heads with creamy hearts. Large, crumpled, medium green leaves with wavy edges.

Postage prepaid: 20 cts. for 25; 50 cts. per 100; 90 cts. for 200; \$1.35 for 500; \$2.00 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.00 for 500; \$1.50 per 1,000.

## Sweet Potato Plants

*Plant May 1 to June 25*

**Yellow Sweet Potato**

**Red Sweet Potato**

**Nancy Hall, Yellow Yam**

**Porto Ricans, Red Yam**

**Carolina Hamans, White Yam**

Postage prepaid: 55 cts. per 100; 95 cts. for 200; \$2.00 for 500; \$3.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: 40 cts. per 100; \$3.00 per 1,000.

## Pepper Plants *Plant May 10 to July 20*

**California Wonder.** A well-liked variety. Meat very thick and dark green, turning crimson. The heaviest and thickest Pepper on the market today. Sweet variety.

**Hot Bull Nose.** A hot, blunt variety.

**Long Red Cayenne.** A red-hot variety used for pickling, drying, etc.

**Red Cherry, Large Cayenne.** Round red hot variety.

**Red Chili or Short Cayenne.** Extremely hot variety.

**Ruby King.** An extra-good variety, earlier than World Beater. Heavy cropper. Sweet variety.

**Tomato or Squash Pepper.** A round, sweet variety.

**World Beater.** This great Sweet Pepper wins praise wherever it is grown. The large plants are loaded with enormous Peppers. We have a good strain of this excellent variety. Highly recommended.

**PULLED SASH OR FIELD-GROWN PLANTS,** ready May 20 to July 20. Postage prepaid: 20 cts. per doz.; 60 cts. per 100; \$1.00 for 200; \$2.00 for 500; \$3.50 per 1,000. Express or Parcel Post, f.o.b. Sewell: \$2.50 per 1,000. At our farms: 10 cts. per doz.; 40 cts. per 100; \$2.50 per 1,000.

**FOR TRANSPLANTING TO COLDFRAME,** ready March 25 to April 25, f.o.b. Sewell: \$2.50 per 1,000.

**TRANSPLANTED,** ready May 1 to June 10, World Beater, 60 cts. for 25; \$1.00 for 50; \$1.50 per 100, postage prepaid.

## Asparagus Roots *Plant March to April*

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family; 5,000 roots to an acre in 4-foot rows.

**Mary Washington.** The best and leading variety.

Extra-strong 2-yr. roots, postage prepaid: 75 cts. for 50; \$1.25 per 100; \$7.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: 85 cts. per 100; \$6.00 per 1,000.

## Rhubarb Roots *Plant March and April*

**Victoria.** An extra-good market sort with large, beautiful red and reddish green stalks.

Extra-large roots, postage prepaid: \$1.25 per doz.; \$5.50 per 100.

Express, f.o.b. Sewell: \$30.00 per 1,000.

At our farms: 60 cts. per doz.; \$4.00 per 100; \$30.00 per 1,000.

## Horseradish Roots

*Plant March and April*

Set the roots in rows 2½ feet apart, 1½ feet apart in the row. Late in the fall take up as many roots as you think you will use, place in a cool cellar and cover with sand.

**Maliner Kren.** The best and leading variety.

**LARGE CUTTINGS,** 40 cts. per doz.; \$1.40 per 100; \$8.00 per 1,000, postage prepaid. 85 cts. per 100; \$7.00 per 1,000, f.o.b. Sewell.

Asparagus Growing for Roots on our Hurffville Farm

**OROL LEDDEN & SONS, Sewell, New Jersey**

# No Vegetable Has More Uses Than the Tomato

PLANTING EIGHT ROWS OF TOMATO SEED ON OUR SEWELL FARM

## Tomato Plants

*Plant May 1 to July 30*

Tomato plants are our greatest specialty, and we believe we are the largest growers of Tomato plants in the United States. Canneries and large growers in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, and Illinois obtain their plants from us every year. We have had single orders for a million plants and many unsolicited testimonials say, "Your plants were good and the Tomatoes produced from them were the best received at the factory."

Our plants are grown from seed treated with Semesan. We give quick service when plants are right size.

**Acme.** Early purple Tomato.

**Bonny Best.** Second-early variety that is liked by canners that grind their Tomatoes for soups or catsups. Tomatoes grow in clusters.

**Certified Marglobe.** The leading variety and used as the main crop by almost all large growers. A second-early, solid, very meaty, thick red Tomato, that ripens well up to the stem, making it very desirable for canning or table use. Heavy yielder. All of our Marglobe plants are grown from New Jersey State Certified Seed.

**Greater Baltimore.** A main-crop red Tomato.

**Large Red Plum.** Italian favorite. Larger and more blocky in shape.

**New Stone.** A good heavy Tomato for canning.

**Oxheart.** Heart-shaped, late-maturing solid variety. Light bearer.

**Ponderosa.** A large purple Tomato, used in gardens.

**Pritchard (Scarlet Topper).** A heavy-yielding variety, about 10 days earlier than Marglobe. Vines are not as rugged as Marglobe and do not hold up throughout the season. Plants grown from New Jersey State Certified Seed.

**Red Plum.** Small, plum-shaped, red fruit.

**Rutgers.** This introduction by Lyman G. Schermerhorn, of the New Jersey Agricultural Experiment Station, is a leading development in Tomatoes. It compares in shape and size with the Marglobe but is slightly larger and a heavier yielder. The fruit ripens a deep red up to the stem, and runs very uniform in size. An excellent variety for home use, marketing, or canning. Canners who put up Tomato juice speak very highly of the variety, as it produces a juice which is deep red in color. All Rutgers grown from New Jersey State Certified Seed. Highly recommended.

**Stokesdale.** A good second-early variety. Fruits are globe-shaped, of good size. One week earlier than Marglobe. Plants grown from New Jersey State Certified Seed.

**Yellow Plum.** Small yellow plum-shaped. Used for preserving.

**TOMATO PLANTS FOR TRANSPLANTING TO COLD FRAMES** ready March 20 to April 20—Earliana, Marglobe, Rutgers, and Pritchard (Scarlet Topper), \$2.50 per 1,000, f.o.b. Sewell.

**FIELD-GROWN TOMATO PLANTS** always give the best satisfaction. Ready May 25 to July 15. Parcel Post or Express prepaid: 20 cts. for 25; 60 cts. per 100; \$1.00 for 200; \$1.50 for 500; \$2.00 per 1,000. Express or Parcel Post, f.o.b. Sewell: 25 cts. per 100; \$1.25 per 1,000.

**TRANSPLANTED (with block of dirt) TOMATO PLANTS**, ready about May 10—Earliana, Rutgers and Marglobe, at our greenhouses, 50 cts. per doz.; \$3.00 per 100; \$25.00 per 1,000. These cannot be shipped by Parcel Post or Express, but can be carried in baskets by auto or truck.

**TRANSPLANTED**, ready May 1 to June 10—Marglobe, Rutgers, postage prepaid: 60 cts. for 25; \$1.00 for 50; \$1.50 per 100.

Pulling Tomato Plants

## VEGETABLE SEEDS

WE LIST 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seed is grown especially for us by the most reliable growers in various parts of the world, so that it may be produced in the section that is best suited for the variety. For example, our Lima Beans are grown in California; Beans, in Idaho; Cantaloupe, in Colorado; Corn, in Connecticut; Onion sets, in Illinois, etc. Contracts with growers are placed twelve to eighteen months before the seed is to be delivered or before the seed-grower plants the seed stock. This is done to secure only fresh and highest quality seeds for our customers.

Orl Ledden, Sr., who has devoted thirty-seven years to the seed business and has been a plant-grower all his life, probably is better acquainted with the farming industry and the gardener's problems than any other man in the seed business today. We say this because he was born and reared

on a large farm in Gloucester County, New Jersey; his father was a farmer and grew plants and seeds. He owns and operates two large farms and other farmland totaling about 300 acres. He has experimented with all of the varieties of vegetable seeds listed in this book and has grown them on a commercial scale. He is therefore well acquainted with their individual characteristics.

We endeavor at all times to secure the highest quality seeds obtainable and to offer these high standard seeds at minimum prices. No seed is allowed to be sold that we know is poor in germination or in any way inferior.

We prepay transportation charges on all of our seeds except quarter bushels or more of Beans, Corn, Onion Sets, and Peas at bushel rates. For prepayment of these, please add 1 cent per pound to the price. This enables our many mail-order customers to secure Ledden's Seeds at no extra cost. No charge is made for packing or package.

Half-ounce sold at ounce rate; 1/2-pound sold at pound rate; 1/4 or 1/2-bushel sold at bushel rate

### Artichoke

**Large Green Globe.** The best variety.

Sow the seed indoors and set the plants Pkg. Oz. 1/4lb. Lb.  
2 to 3 feet apart, in April or May.....\$0 10 \$0 50 \$1 50 \$5 00

### Asparagus *Sow in March and April*

**Mary Washington.** The best variety of Asparagus. It is a selected strain, earlier and more vigorous than other varieties, producing fat, delicious stalks abundantly and regularly. This is the famous rustproof variety produced after many years' effort, and is completely free from rust and other fungous diseases which harass the life of many Asparagus growers. Quality is of the highest. Oz. 10 cts.; 1/4lb. 25 cts.; lb. 75 cts.; 5 lbs., 70 cts. per lb.

ONE TO TWO YEARS CAN BE SAVED BY THE PLANTING OF ASPARAGUS ROOTS. IT TAKES THREE YEARS FROM TIME SEED IS SOWN UNTIL ASPARAGUS CAN BE CUT.

WE OFFER ROOTS ON PAGE FOUR

### Beans, Green-Pod

*Plant April 15 to August 15*

**Bountiful.** Extra early. Large, flat pods, entirely stringless. Enormous yielder. The most popular market variety. Highly recommended. Requires 48 days from sowing to date of maturity.....\$0 25 5 lbs. 10 lbs. Bus. of per lb. per lb. 60 lbs. \$0 20 \$0 18 \$6 30

**Burpee Stringless.** Round-podded, stringless variety. Good yielder. Requires 50 days from sowing to date of maturity.....25 20 18 6 60

**Dwarf Horticulture.** Beans and pod splashed with carmine, stringless. Large and heavy yielder. Used as a Snap Bean when young, or shelled. Requires 55 days from sowing to date of maturity.....25 20 18 7 20

**French Horticulture.** Large pods, heavily splashed with carmine. Vines large, heavy yielders. Used for shelling. Requires 66 days from sowing to maturity. 25 22 20 9 00

# Remember Succotash with Fresh Limas

## GREEN-POD BEANS, continued

<b>Giant Stringless.</b> Long, round pod, entirely stringless. Requires 53 days from sowing to date of maturity.....	Lb.	5 lbs. per lb.	10 lbs. per lb.	Bus. of 60 lbs.
	\$0 25	\$0 20	\$0 18	\$6 60
<b>Plentiful.</b> Flat, medium-green pods, 6 to 7 inches long. A very good yielder of perfectly stringless Beans. Black-seeded. Requires 51 days from sowing to date of maturity.....	25	20	18	6 60
<b>Stringless Black Valentine.</b> Very early. Pods are long, smooth, straight, and round. A recent introduction, completely stringless, and a big improvement over the old type. Requires 50 days from sowing to date of maturity.....	25	20	18	6 60
<b>Tendergreen.</b> Long, green, straight pods and perfectly round. Requires 54 days from sowing to date of maturity.....	25	20	18	6 60

## Wax-Pod Beans Plant April 15 to August 15

<b>Crackerjack or Weber Wax.</b> Extra-good, stringless, flat-podded Bean. One of the best Wax Beans. Requires 48 days to mature.....	25	20	18	7 20
<b>Currie's Rustproof.</b> Early. Flat pods. Very heavy cropper. Requires 52 days to mature.....	25	20	18	7 20
<b>Golden Wax.</b> Flat, broad pod, entirely stringless. Requires 50 days to mature.....	25	20	18	7 20
<b>Pencil-pod Wax.</b> Round, long pod of unrivaled appearance and quality. Requires 57 days to mature.....	25	20	18	7 20
<b>Round-Pod Kidney Wax or Brittle Wax.</b> A good table variety. Pods round and thick waxy light yellow. Requires 58 days to mature.....	25	20	18	7 20
<b>Unrivaled Wax.</b> A very popular stringless round-pod. Requires 50 days to mature.....	25	20	18	7 20

Beans, Bountiful

## Bush Lima Beans (California-grown)

Sow from May 1 to July 15

**Burpee's Improved.** A flat-pod Lima, which has steadily advanced in popularity for both home-growing and market use. It bears uniformly larger pods than the original Burpee's Bush Lima, which contain even thicker Beans that remain green after they become dry. The compact, bushy plants are very prolific, bearing huge pods in clusters of 5 to 7, averaging 5 inches long or more, with 6 large, flat Beans which are thin-skinned and have a delicious flavor. Matures in 75 days from sowing.....

	Lb.	5 lbs. per lb.	10 lbs. per lb.	Bus. of 60 lbs.
	\$0 30	\$0 25	\$0 20	\$8 40

**Fordhook.** We have a reputation for handling an excellent grade of Fordhook Bush Limas. Our Beans are all hand-sorted, extra large, good croppers, and almost free from cracked Beans. We supply a number of the largest growers, some of whom plant as many as 40 acres of Fordhook Bush Limas, and have been buying their seed supplies from us for thirty years. Especially grown by a leading grower who specializes in this variety. Requires 75 days from sowing to date of maturity.....

	30	25	20	8 40
--	----	----	----	------

**Henderson's Bush Lima.** A fine Baby Lima with productive bushes 20 inches tall. Each pod contains 3 or 4 small white Beans. Matures in 65 days.....

	30	25	20	7 80
--	----	----	----	------

## Pole Lima Beans Sow from May 1 to July 1

**Improved Pole Lima or Challenger.** Very productive vines, bearing pods 4 inches long containing 4 or 5 large, meaty Beans. Matures in 92 days.....

	Lb.	5 lbs. per lb.	10 lbs. per lb.	Bus. of 60 lbs.
	\$0 30	\$0 25	\$0 22	\$10 80

**Green-seeded Pole Lima.** Popular variety, bearing bunches of long pods with 4 or 5 thick green Beans of high quality. Matures in 88 days.....

	30	25	22	10 80
--	----	----	----	-------

**King of the Garden Lima.** Strong-growing vines bearing large pods with handsome, delicious Beans loosely packed. Matures in 88 days.....

	30	25	22	10 80
--	----	----	----	-------

Beans, Stringless Black Valentine

Bountiful, Stringless Black Valentine, Crackerjack Wax and Fordhook Bush Lima are the leading varieties of Beans

# We Offer Special Strains of the Popular Varieties of Beets

Field of Early Wonder Beets Growing from Our Seed on the Farm of William Brandenburg, Sewell, New Jersey

## Pole or Running Bean

Sow from April 15 to July 15

**Golden Cluster Wax.** A good Bean for snap or shelling. Pods flat, waxy yellow. 5 lbs. 10 lbs. Bus. of Lb. per lb. per lb. 60 lbs. \$0 25 \$0 20 \$0 18 \$10 20

**Kentucky Wonder.** Green pod. Vigorous vines with huge bunches of green pods 7 to 9 inches long. Excellent for table when young. Very prolific. Ready in 68 days from sowing. 25 20 18 10 20

## Broccoli Sow from April to July 1

**Italian Green Calabrese, Sprouting Type.** The leading variety for shippers, market gardeners, and home-gardens. The tall, branching plants form a compact head of bluish green flower-buds resembling a head of cauliflower. After the main head has been removed, side shoots with small heads continue to develop. A delicious vegetable, steadily gaining in favor. 60 days to maturity. Pkg. Oz. 1/4lb. Lb. \$0 10 \$0 30 \$1 00 \$3 00

**Rapa or Italian Turnip Broccoli.** Grown for tops and tender flower shoots used as greens. Plant 18 to 22 inches tall; strap leaved, medium grown. Used mostly for fall sowing. 10 25 65 2 00

## Brussels Sprouts Sow April and May

**Long Island Improved.** Plants 22 to 26 inches tall; stems thickly set with firm, cabbage-like balls 1 1/2 inches in diameter, maturing successively. 10 50 1 50 5 00

## Beets

Sow from March 20 to July 20

**Crosby's Egyptian.** A standard early variety very popular with market gardeners as the tops bunch well and the dark red, flat-globe or turnip-shaped roots make a good appearance. Small tap-root. Top large and tall. Flesh purplish red. Matures in 60 days. Oz. 1/4lb. Lb. 5 lbs. per lb. \$0 10 \$0 30 \$0 90 \$0 85

**Detroit Dark Red.** A standard variety for truckers, produce shippers, and canners. Tops medium, dark green tinged with red. Roots globular, smooth, uniform, attractive, with small tap-root. Color deep ox-blood-red. Flesh dark red with indistinct lighter red zones; fine quality, sweet and tender. Matures in 68 days. 10 30 90 85

**Early Wonder.** A pedigreed stock, the result of many years of breeding; unsurpassed in earliness, uniformity, and in depth of interior color. Distinctive green tops, erect, uniform in size and color, bunching very attractively for market. Roots round when young, semi-globular later, deep red, smooth, with small neck and tap-root. Flesh deep dark red, tender, and of excellent quality. Matures in 57 days. 10 30 90 85

**Mangel Wurzel, Mammoth Long Red.** Roots extremely large, long, slightly tapering, grow half above ground. Color light red; flesh white with rose tinge. Used extensively for cattle feeding. Matures in 110 days. 10 30 80 75

## Cauliflower

Sow in April and May

**Early Snowball.** The best early sort. Heads large and compact. Always a good cropper. Matures in about 95 to 110 days. Pkg. Oz. 1/4lb. Lb. \$0 50 \$4 00 \$13 50 \$48 00

Broccoli, Italian Green Calabrese

# Our Seeds Are Carefully Tested for Germination

Cabbage, Copenhagen Market

## Cabbage

Sow early varieties in hotbed in February; in open, March and April  
Sow late varieties April 15 to June 1

<b>Golden Plume</b> . . . . .	10	75	2 50	7 50
<b>Ledden Golden Self-blanching.</b> Tall..	10	75	2 50	7 50
<b>Sanford Easy-blanching</b> . . . . .	10	50	1 50	5 00
<b>Supreme Golden</b> . . . . .	10	75	2 50	7 50
<b>White Plume</b> . . . . .	10	40	1 25	3 50
<b>Winter King</b> . . . . .	10	40	1 25	3 50

## Dandelion

*Sow March, April and August*

	Pkg.	Oz.	$\frac{1}{4}$ lb.	Lb.
<b>Improved Thick-leaved.</b> Large, hand- some foliage. . . . .	\$0 10	\$0 60	\$1 75	\$6 00
<b>Italian.</b> Curled variety. . . . .	10	50	1 50	4 00

## Dill *Sow April and May*

**Long Island Mammoth.** Used for seasoning and flavoring of pickles. . . . . 15 45 1 25

## Eggplant *Sow in greenhouse in February*

**Black Beauty.** The best variety. Fruit large; glossy black. Early and thornless. 10 35 1 25 4 00

Endive, Full-Heart Batavian

## Endive or Escarolle

*Sow March, April, and August*

	Oz.	$\frac{1}{4}$ lb.	Lb.
<b>Broad-leaved Batavian.</b> Broad, thick ribs with slightly wrinkled leaves. . . . .	\$0 10	\$0 35	\$1 00
<b>Full-Heart Batavian.</b> Best broad-leaf variety. . . . .	10	35	1 00
<b>Green Curled.</b> Curled variety with white ribs. . . . .	10	35	1 00

## Fennel or Anise *Sow in May and June*

**Large Sweet Florence.** Popular vegetable in some markets. . . . . 25 75 2 25

## Kale or Borecole

*Sow August 15 to September 30*

<b>Early Dwarf Scotch.</b> Plant low and compact, resembling a bunch of moss. Matures in 60 days. . . . .	15	50	1 50
<b>Dwarf Blue Scotch.</b> Bluish green, extra curled variety. Matures in 60 days. . . . .	15	50	1 50
<b>Siberian.</b> Grows faster than Scotch, but not so much curled. Extremely hardy. Matures in 55 days. . . . .	15	45	1 25

## Kohlrabi or Turnip-rooted Cabbage

*Sow from March to July*

	Pkg.	Oz.	$\frac{1}{4}$ lb.	Lb.
<b>Early Purple Vienna.</b> Very attractive. Flesh tender. . . . .	\$0 10	\$0 35	\$1 00	\$3 50
<b>Early White Vienna.</b> Earliest variety. Good quality. . . . .	10	35	1 00	3 50

## Leek *Sow in March and April*

**American Flag.** The most popular variety. Used for flavoring. . . . . 50 1 50 5 00

Cucumber, Straight-8

# Yes, Nearly Everybody Likes Lettuce

Muskmelon, Hale's Best

↑ Lettuce, New York or Wonderful

Onion, Japanese or Ebenezer

## Lettuce

Plant March and April for spring; August and September for fall

	Oz.	1/4lb.	Lb.	
<b>Big Boston.</b> Large, solid light green heads, slightly tinged with brown	\$0 15	\$0 40	\$1 25	
<b>Black-seeded Simpson.</b> A good curled variety	15	40	1 25	
<b>Cabbage or Butter.</b> Good garden variety. Makes a large head	15	40	1 25	
<b>Cos or Romaine.</b> Upright variety; self-blanching	15	40	1 25	
<b>Iceberg.</b> Light green; heads large, crisp, and tender. Stands hot weather well. Slightly curled	15	40	1 25	
<b>New York or Wonderful.</b> Good variety for this section. Under proper conditions will develop good-sized, solid heads	15	40	1 25	
<b>Silicia Curled.</b> A loose-leaf, curled variety called by some "cut-and-come-again"	15	40	1 25	
<b>White Boston.</b> Head large and handsome. A popular variety	15	40	1 25	
<b>Chicken Lettuce.</b> Distinct from any other Lettuce. It will yield more chicken-feed than any other plant grown for greens. Plants 3 to 4 feet high. Cut or pull leaves as needed	10	30	1 00	

## Muskmelon or Cantaloupe

Plant May and June

	Oz.	1/4lb.	Lb.	5 lbs. or more per lb.
<b>Bender's Surprise.</b> Salmon flesh; delicious flavor	\$0 10	\$0 30	\$1 00	\$0 90
<b>Fordhook.</b> Flesh orange, deep meated, of excellent flavor. A good shipper. We have a selected strain of this excellent Muskmelon	10	30	1 00	90
<b>Hale's Best.</b> Very popular variety. Flesh orange, heavily netted. A good shipper. All of our stock is grown on contract for us by a most reliable grower in Colorado	10	30	1 00	90
<b>Hearts of Gold.</b> Golden flesh. Grows large	10	30	1 00	90
<b>Honey Rock or Sugar Rock.</b> Golden pink; honey sweet	10	30	1 00	90
<b>Imperial Special or Improved Weaver's Special.</b> A great improvement over the popular Weaver's Special. Its deep orange flesh extends to the rind	15	45	1 25	1 15
Pkg. 10 cts.				
<b>Pride of Wisconsin.</b> This variety is in big demand in eastern markets. One of the sweetest melons grown. The fruits are about 7 inches long, 6 inches in diameter. Has thick, dark salmon flesh with a very small seed-cavity. Heavily covered with a distinctive netting. Skin is pearly gray in color with a faint rib. We have a good strain and recommend this variety	15	35	1 20	1 10
Pkg. 10 cts.				
<b>Sugar Sweet.</b> An extra-good early variety. Green flesh	10	30	1 00	90

## Mustard Sow in April and May

<b>Fordhook Fancy or Ostrich Plume.</b> Bright green	10	20	60	55
<b>Giant Southern Curled.</b> The leading variety	10	20	60	55
<b>Mustard Spinach.</b> Spinach flavor	10	20	60	55

## Onions Sow in March and April

	Oz.	1/4lb.	Lb.	
<b>Japanese or Ebenezer.</b> Mildest flavor; yellow skin	\$0 40	\$1 35	\$4 00	
<b>Prizetaker.</b> Handsome Onion. Large, globe-shaped. Used for growing Onions or if sown thick will grow sets	50	1 75	5 00	
<b>Southport White Globe.</b> Silvery white; sweet flesh	50	1 50	4 50	
<b>Strasburg.</b> Straw-colored Onion grown for sets	40	1 35	4 00	
<b>Yellow Globe Danvers.</b> Used for sets. Yellow, globe-shaped. Good keeper	40	1 35	4 00	

# The First Picking of Peas Is an Event

## Onion Sets Plant March and April

**Japanese.** We sell large quantities of this leading variety of Onion and highly recommend it. It grows large, globe-shaped Onions, straw colored and mild in flavor.

<b>Red Cherry.</b> Small; round; very hot....	10	30	1 00	3 50
<b>Red Chili or Finger Cayenne.</b> The short, hot Cayenne Pepper.....	10	30	1 00	3 50
<b>Ruby King.</b> Large, sweet, long-shaped fruit. An early variety.....	10	30	1 00	3 50
<b>Sunny Brook or Tomato Pepper.</b> Sweet tomato-shaped Pepper. Heavy yielder..	10	35	1 25	4 00
<b>World Beater.</b> Large, sweet, heavy-yielding variety. A good market kind.....	10	30	1 00	3 50

## Pumpkin *Sow from May 1 to July 15*

<b>Connecticut Field.</b> Used for feeding stock. A heavy cropper.....	10	25	75
<b>King of Mammoth.</b> Grows to enormous size; round, ridged; orange color, sometimes streaked with green. Quality excellent. Flesh yellow...	10	25	75
<b>Large Cheese.</b> Cheese shape; light yellow. Flesh deep yellow. Good for planting in corn.....	10	25	75

## Parsnip *Sow in April or May*

<b>Perfection Hollow-crown.</b> This is the standard for market and home-garden. Can be dug in midwinter.....	15	35	1 00
---	----	----	------

We prepay transportation charges on all of our seeds except quarter bushels or more of Beans, Corn, Onion Sets, and Peas at bushel rates. For prepayment of these, please add 1 cent per pound to the price.

## Radish

*Sow March, April, and May for early crops; August and September for late crops*

	Oz.	1/4lb.	Lb.	5 lbs. per lb.
<b>Crimson Giant.</b> Large scarlet Radish. Does not mature quickly and remains in good condition a long time.....	\$0 10	\$0 25	\$0 70	\$0 65
<b>Early Scarlet Globe.</b> Round; red. Used for spring and fall planting. We have a very fine strain of this leading variety. The seed is produced from transplanted stock, insuring type which is uniform...	10	25	70	65
<b>French Breakfast.</b> Turnip-shaped; red with white tips.....	10	30	90	85
<b>Icele.</b> Long white roots. The best and crispest variety for hot-weather growing.	10	25	70	65
<b>Long Scarlet.</b> White-tipped. Very crisp. A popular variety for bunching.....	10	25	70	65
<b>Philadelphia White Box.</b> Round, pure white, early Radish, used for bunching.	10	25	70	65
<b>Sparkler or White-Tip Scarlet Globe.</b> Very attractive and popular.....	10	30	90	85
<b>White Strasburg.</b> Turnip-shaped; white; remains solid a long time. No pithiness.	10	25	70	65

## Winter Radish *Sow in August and September*

	Oz.	1/4lb.	Lb.
<b>China Rose.</b> Grows about 6 inches long. Crisp flesh, firm; skin scarlet. Excellent quality.....	\$0 10	\$0 30	\$0 85
<b>Chinese White Celestial.</b> Long, thick Winter Radish. Very white, crisp flesh. A profitable market variety.....	10	30	85
<b>Half-Long Black Winter.</b> Stubby, solid roots which keep well.....	10	30	85
<b>Long Black Spanish.</b> Roots dark brown, 8 to 10 inches long. Keeps well. One of the best varieties.....	10	30	85
<b>Round Black Spanish.</b> Grows round to turnip shape. Keeps well for winter and is much used.	10	30	85

Radishes, Icele

# Try the New Early Prolific Straightneck Squash, a Fine Introduction

## Rhubarb

**Victoria.** The main-crop variety. Vigorous in growth, with upstanding, thick red stalks of excellent quality..... \$0 25 \$0 75 \$2 25

## Savory Sow April to June

**Summer.** Used for seasoning soups and dressings. 40 1 25 4 00

## Sage Sow April to June

**Broad-leaved.** Much used for seasoning, green or dried..... 50 1 50 5 00

## Salsify or Oyster Plant Sow May and June

**Sandwich Island.** Delicious root-crop with flavor like oysters..... 20 65 2 00

## Spinach

Sow March or April for spring use; August or September for fall use

**Bloomsdale Savoy Reselected.** An early variety with crumpled leaves. This is the best variety. We handle tons of this 1/4lb. Lb. 10 lbs. 100 lbs. excellent seed..... \$0 20 \$0 55 \$0 50 \$0 47

**Long-standing Savoy.** For spring sowing 20 55 50 47

**New Zealand.** For summer use. Sow during April and May..... 25 80 75

## Sweet Marjoram Sow in May

Popular pot-herb. Leaves and stems used for flavoring..... \$0 25 \$0 65 \$1 75 \$6 00

## Sweet Basil

Herb whose sweet-scented leaves are used for seasoning soups and stews..... 50 1 50 4 50

## Swiss Chard or Spinach Beet

Sow March to June

**Dark Green.** Straight leaves, tender and crisp.. 15 35 1 00  
**Lucullus.** Curly leaves; very tasty..... 15 35 1 00

Squash, Early White Bush

## Squash, Summer Varieties

Sow April 1 to July 20

**Early Prolific Straightneck.** Introduced in 1938. An attractive productive strain of Giant Summer Straightneck; though the fruits are somewhat smaller they are earlier and of bright lemon-yellow color. Very attractive. 50 days to maturity .. \$0 10 \$0 35 \$1 10 \$1 00

**Early Summer Crookneck.** An extensively used summer sort. Plants very prolific. Fruits curved at neck, light yellow and covered with warts. .... 10 35 1 00 90

**Early White Bush or Pattypan.** Scalloped; greenish white. Excellent quality for home use. 52 days to maturity..... 10 30 90 80

**Giant Summer Straightneck.** The straightneck variety, deep orange in color, and fruit intensely warted. 60 days to maturity..... 10 35 1 00 90

**Green-tinted White Bush Scallop.** Similar to Pattypan, except the vegetable has a greenish tint which it retains until maturity. 55 days to maturity..... 10 35 1 00 90

**Long Cocozelle.** Elongated; green. Squash are best when 10 to 12 inches long and when fried are superior to eggplant. Hardy grower. Can be planted earlier than White Bush. 65 days to maturity..... 10 35 1 00 90

**Zucchini Black.** Similar in all respects to Cocozelle except shorter. Skin darker, 6 to 8 inches long, 3 inches in diameter. 62 days to maturity..... 10 35 1 00 90

## Squash, Winter Varieties

Sow June 1 to July 15

**Blue Hubbard.** A large Squash of the Hubbard shape but the color is gray. The shell is hard; a very good keeper..... \$0 10 \$0 25 \$0 85

**Boston Marrow.** Fall and winter variety. Grows medium size to large; orange color; salmon-yellow flesh, fine-grained and of excellent flavor. Grown more than any other..... 10 15 40

**Golden Hubbard.** Medium size, smaller than Boston Marrow; somewhat warted; golden yellow. An extra-good keeper..... 10 25 85

**Green Hubbard.** Similar to Golden Hubbard but rind is dark green. Extra-good keeper.... 10 25 85

**Table Queen or Acorn.** Winter or running variety. Small, about 6 to 8 inches long, 3 inches in diameter. Color deep green to orange. A good keeper. Becoming popular..... 10 25 85

## Thyme Sow May or June

**French Broadleaf.** Aromatic herb used for flavoring..... Pkg. Oz. \$0 20 \$0 60

Spinach, Bloomsdale Savoy

## We Have Selected Strains of the Leading Tomato Varieties

Tomatoes, Rutgers

### Tomato

*Sow in greenhouses in February; in open from April 15 to May 30*

We make large sales of Tomato seed. Tomatoes from our seed have been grown in every state east of the Mississippi River during the past 30 years. We have hundreds of testimonials from satisfied customers. For description of varieties not given below, see Tomato Plants. Special prices to canners and plant growers.

	Pkg.	Oz.	1/4lb.	Lb.
<b>Acme.</b> An early purple variety.....	\$0 10	\$0 25	\$0 75	\$2 50
<b>Bonny Best.</b> .....	10	25	75	2 50
<b>Certified Marglobe.</b> State of New Jersey Certified Seed.....	10	30	90	3 00
<b>Earliana.</b> Used only for early.....	10	25	75	2 50
<b>Greater Baltimore.</b> .....	10	25	75	2 50
<b>Market Champion.</b> Heavy yielder.....	10	25	75	2 50
<b>New Stone.</b> .....	10	25	75	2 50
<b>Oxheart.</b> Large, heart-shaped, pink skin.	10	35	1 00	4 00
<b>Pritchard (Scarlet Topper).</b> State of New Jersey Certified Seed.....	10	30	90	3 00
<b>Purple Ponderosa.</b> Magnificent in size and weight.....	10	35	1 00	4 00
<b>Red Plum.</b> Small, oval shape, and delicious.....	10	35	1 00	4 00
<b>Rutgers.</b> State of New Jersey Certified Seed.....	10	30	90	3 00
<b>Stokesdale.</b> State of New Jersey Certi- fied Seed.....	10	30	90	3 00
<b>Valiant.</b> Early variety. Marglobe type..	10	30	1 00	3 00
<b>Yellow Plum.</b> Oval shape, 2 inches in length.....	10	40	1 50	5 00
<b>Yellow Ponderosa.</b> Striking color. Large yellow variety.....	10	35	1 00	4 00

For description of above varieties, see Tomato Plants on page 5

### Rutabaga *Sow July and August*

<b>Golden Neckless Purple-Top.</b> A very fine strain of special-stock Rutabaga. Minimum of neck; deep golden flesh; purple top.....	\$0 10	\$0 35	\$1 00
<b>Improved American Purple-Top.</b> Flesh deep yellow; purple top; excellent flavor. Rapid grower. Should be sown in rows and cultivated.	10	25	75

### Turnip

*Sow March or April for spring crop;  
July or August for fall crop*

<b>Aberdeen Green-Top Yellow Globe.</b> A me- dium-sized root, rather late-maturing. Fine pale yellow, globe-shaped, with a short green crown.....	\$0 10	\$0 20	\$0 50
<b>Aberdeen Purple-Top Yellow Globe.</b> Similar to Green-Top Yellow Globe, except that the crown is purple.....	10	20	50
<b>Golden Ball.</b> An excellent golden yellow, ball- shaped Turnip which does not grow very large.	10	25	75
<b>Mammoth Purple-Top White Globe.</b> Large, globe-shaped Turnip with a purple crown and the rest pure white. This is the most popular of all Turnips and the quickest grower. This is much used for broadcasting with grass.....	10	20	50
<b>Seven-Top.</b> The abundant tops are used for greens in the manner of spinach, making a delicious dish, while the roots may be cooked as ordinary Turnips.....	10	20	50
<b>Shogoin or Japanese Foliage.</b> Serves a dual purpose. The long, strap-shaped leaves are used as "greens," and the white globe-shaped root for cooking. Very resistant to blights and pests of all kinds.....	10	20	50

### Watermelon *Plant in May and June*

<b>Dixie Queen.</b> A new variety becoming quite popular. Fruits oblong or nearly round, fair size, light green, striped and blotched with dark green. Flesh rich scarlet, extremely sweet with very few seeds.....	15	35	1 00
<b>Excel.</b> Large, dark green melon. Tough rind. Good flavor.....	10	25	75
<b>Improved Kleckley Sweet.</b> Oblong; medium size; dark green with bright red flesh, sweet and delicious.....	10	25	75
<b>Long White Icing.</b> White-rind variety; sweet and delicious.....	10	25	75
<b>Preserving Citron.</b> Used for preserving. Red seed.....	10	25	75
<b>Stone Mountain.</b> A good popular melon for market or for home use. Large, oval-round; dark green rind; solid scarlet flesh. Early for its size.....	10	25	75
<b>Tom Watson.</b> Large green-rind melon. A good shipper.....	10	25	75

Watermelon, Dixie Queen

**OROL LEDDEN & SONS, Sewell, New Jersey**

# Grass Seed for Every Purpose, the Very Best Obtainable

SUDAN GRASS

## Lawn Grass Mixtures

- Evergreen Lawn Grass.** This is our own Mixture in which we use only recleaned, high-grade grasses and white Dutch clover. . . . . \$0 30 \$5 00
- Ledden's Clover Lawn Grass.** An extra-good Mixture that contains a large percentage of recleaned white clover and highest grade grasses. . . . . 35 6 00
- Shady Lawn.** Special mixed for shady places. . . . . 35 6 00

## Clover and Grass Seeds

### FANCY RECLEANED

#### For Hay and Permanent Pasture

- Bent Grass, Colonial.** This variety differs from the Seaside in that it spreads from underground rootstalks. Gives a good dense sod of pleasant green color. Lb. 90 cts.; 10 lbs. \$8.00; 100 lbs. \$75.00, delivered.
- Bent Grass, Seaside.** Hardy creeping variety forming an ideal turf. Does well in moist soils. Grows fast and adapts itself to almost any soil. Excellent for fine lawns and for putting greens. Lb. 90 cts.; 10 lbs. \$8.00; 100 lbs. \$75.00, delivered.
- Blue Grass, Canadian.** Used in permanent pasture mixtures. Will thrive in any soil. Lb. 40 cts.; 10 lbs. \$3.50; 25 lbs. \$8.00; 100 lbs. \$31.00, delivered. 100 lbs. \$30.00, f.o.b. Sewell.
- Fescue, Chewing's.** Recommended for fine lawns. It resists drought well, gives good results under trees, and succeeds on sandy soil. Sow 30 pounds to the acre. Lb. 60 cts.; 10 lbs. \$5.50; 100 lbs. \$50.00, delivered.
- Fescue, Meadow, or English Blue.** Used in permanent pasture mixtures. Lb. 30 cts.; 10 lbs. \$2.30; 100 lbs. \$21.00, delivered.
- Kentucky Blue Grass.** The leading variety of grass used in lawn mixtures and in permanent pastures. It thrives in dry soil and holds its verdure during the hottest weather. Especially valuable in pasture mixtures as it starts early in the spring and furnishes good grazing until late in the fall. For pasture sow 30 pounds to the acre; for lawns, 50 pounds to the acre. Lb. 35 cts.; 10 lbs. \$3.00; 25 lbs. \$6.75; 100 lbs. \$26.00, delivered. 100 lbs. \$25.00, f.o.b. Sewell, N. J.
- Orchard Grass.** One of the earliest and most desirable varieties of grasses for the sowing of pastures. Lb. 38 cts.; 10 lbs. \$3.50; 100 lbs. \$32.00, delivered.
- Poa trivialis.** The leading variety of grass used for sowing of shady lawns. Used in almost all mixtures of shady lawn grass seed. Lb. 85 cts.; 10 lbs. \$8.00; 100 lbs. \$75.00, delivered.
- Red-Top or Herd Grass, Fancy Recleaned.** One of the leading varieties used in the sowing of pastures and lawns. Will thrive well in any soil. Recommended for land that will not grow blue grass. Lb. 25 cts.; 10 lbs. \$2.00; 25 lbs. \$4.50; 100 lbs. \$16.00, delivered.
- Red-Top or Herd Grass, Unhulled.** Lb. 20 cts.; 10 lbs. \$1.70; 25 lbs. \$3.75; 100 lbs. \$14.00, f.o.b. Sewell, N. J.
- Rye Grass, Domestic.** Annual grass used for pasture and lawn. Grows well in almost any soil. Lb. 15 cts.; 10 lbs. \$1.20; 100 lbs. \$9.00, delivered. \$8.00 per 100 lbs., f.o.b. Sewell.

**Rye Grass, Perennial.** A permanent grass used for pastures or meadows. Lb. 25 cts.; 10 lbs. \$2.00; 100 lbs. \$17.00, delivered.

**Sudan Grass.** An annual grass, growing 3 to 5 feet high, sown as an emergency pasture and hay crop. It is also used as a silage crop and is a very good soil-building crop. The hay is equal in feeding value to that of timothy or millet. Excellent for sowing in combination with soy beans. Close drilled or broadcast, 25 to 35 pounds per acre. Lb. 10 cts.; 10 lbs. 80 cts.; 25 lbs. \$1.75; 100 lbs. \$6.00, delivered. 100 lbs. \$5.75, f.o.b. Sewell, N. J.

**Timothy.** The most valuable of all hay grasses. Sow in the fall or spring and use either straight or in mixtures of clover for hay. Produces heavy crops and has remarkable vitality under all sorts of conditions of moisture and temperature. Very resistant to cold and stands a heavy coat of snow of long duration. Lb. 15 cts.; 10 lbs. \$1.20; bus. (45 lbs.) \$4.50, delivered. Bus. \$4.00, f.o.b. Sewell, N. J.

**Permanent Pasture Mixtures.** For highland sowing for permanent cattle pasture. Lb. 25 cts.; 10 lbs. \$2.20; 25 lbs. or more, 19 cts. per lb., delivered.

**Permanent Pasture Mixtures.** For lowland sowing for permanent cattle pasture. Lb. 25 cts.; 10 lbs. \$2.20; 25 lbs. or more, 19 cts. per lb., delivered.

SEE PAGE 18 FOR CLOVERS, SEED GRAINS, ETC.

# Clover Puts into the Soil What Other Crops Take Out

Alfalfa, Kansas Verified

## Clovers, Seed Grains, Etc.

**Alfalfa, Grimm Verified.** The Alfalfa with a variegated flower. It has a wide-spreading root-system rather than the long tap-root characteristic of common Alfalfa. Grimm is the most hardy variety of Alfalfa, having a reputation for ability to survive severe winters. Lb. 35 cts.; 10 lbs. \$3.20; bus. (60 lbs.) \$17.40, delivered. Bus. \$16.80, f.o.b. Sewell, N. J.

**Alfalfa, Kansas, U. S. Verified Origin.** Seed grown in Kansas. Lb. 35 cts.; 10 lbs. \$3.00; bus. (60 lbs.) \$15.60, delivered. Bus. \$15.00, f.o.b. Sewell, N. J.

**Alfalfa, Northwestern, U. S. Verified Origin.** Alfalfa is the most valuable forage crop. It is a legume and will succeed on any good loamy soil but the land must be well prepared for best results. Alfalfa should always be cut when it is just commencing to bloom. Northwestern, U. S. Verified is grown in Montana, Idaho, the Dakotas, and Nebraska. Lb. 35 cts.; 10 lbs. \$3.00; bus. (60 lbs.) \$16.20, delivered. Bus. \$15.60, f.o.b. Sewell, N. J.

**Alsike Clover.** A very valuable variety which resembles Red Clover in growth and habit. A hardy Clover resisting extremes of heat and cold to a remarkable extent. Thrives equally well in wet or dry soils. A valuable Clover to be used in sowing for mixed hay with Medium Red Clover and timothy. Lb. 25 cts.; 10 lbs. \$2.30; bus. (60 lbs.) \$12.00, delivered. Bus. \$11.40, f.o.b. Sewell, N. J.

**Barley, Six-rowed.** A stiff-strawed, heavy-yielding, six-rowed bearded variety. It is superior to other sorts in rust-resistance and stiffness of straw. Bus. (48 lbs.) \$1.35, f.o.b. Sewell, N. J.; \$1.90, freight prepaid.

**Buckwheat, New Japanese.** A heavy cropper and less liable to blight than other sorts. The kernels are larger and the straw is stouter and heavier. Lb. 15 cts.; 10 lbs. 60 cts.; bus. (48 lbs.) \$2.20, delivered. Bus. \$1.65, f.o.b. Sewell, N. J.

**Canada Field Peas.** Valuable in northern climates as a cattle-feed. Used for horse- and pig-feed when sown with oats. Bus. \$4.00, f.o.b. Sewell, N. J.; \$4.50, freight prepaid.

**Cowpea, Brown Whippoorwill.** Used as hay for cattle and for cover-crop. Bus. (60 lbs.) \$2.70, f.o.b. Sewell, N. J.; \$3.20, freight prepaid. \$2.65 per bus. at Sewell.

**Cowpea, Mixed.** For hay and cover-crop. Bus. (60 lbs.) \$2.40, f.o.b. Sewell, N. J.; \$3.00, freight prepaid. \$2.40 per bus. at Sewell.

**Crimson Clover.** An annual Clover of strong growth, providing a good crop of forage for plowing under. It should be sowed in July, August, or early September and plowed about the time it blooms. Lb. 20 cts.; 10 lbs. \$1.50; bus. (60 lbs.) \$8.70, delivered. Bus. \$8.10, f.o.b. Sewell, N. J.

**Lespedeza, Korean.** An annual legume used as a cover-crop and also for feeding purposes. Used on a large scale in the South but has not proved fully satisfactory in the northern states. Lb. 20 cts.; 10 lbs. \$1.30; 100 lbs. \$13.00, delivered. 100 lbs. \$11.00, f.o.b. Sewell, N. J.

**Lespedeza, Silicia.** Perennial variety used for cover-crop and for feeding. Lb. 20 cts.; 10 lbs. \$1.80; 100 lbs. \$17.00, delivered. 100 lbs. \$16.00, f.o.b. Sewell.

**Millet, Golden.** Used for quick hay or pasture. The Golden variety is used in Pennsylvania and New Jersey extensively. Lb. 10 cts.; 10 lbs. 75 cts.; 100 lbs. \$6.00, delivered. 100 lbs. \$5.00, f.o.b. Sewell, N. J.

**Oats, White Russian.** Sowed in spring, either for hay or for the grain. Bus. \$1.10, f.o.b. Sewell, N. J.; \$1.40, freight prepaid.

**Rape, Dwarf Essex.** A quick-growing forage crop valuable for poultry or hogs, or may be used as a cover-crop. Used as a vegetable green and grown by market gardeners for that purpose. Lb. 25 cts.; 10 lbs. \$2.30; 100 lbs. \$21.00, delivered. 100 lbs. \$20.00, f.o.b. Sewell, N. J.

**Red Clover, Medium.** Regarded as the most valuable farm crop. Used extensively for hay and pasturage and is also valuable as a soil-builder. It is a biennial or short-lived perennial and grows 1 to 2 feet high. Lb. 25 cts.; 10 lbs. \$2.30; bus. (60 lbs.) \$12.00, delivered. Bus. \$11.40, f.o.b. Sewell, N. J.

**Rye, Spring.** For spring sowing. Bus. (56 lbs.) \$2.25, f.o.b. Sewell, N. J.; \$2.90, freight prepaid.

**Rye, Winter Rosen.** Sowed for the grain and also as a cover-crop. Bus. (56 lbs.) \$1.20, f.o.b. Sewell, N. J.; \$1.80, freight prepaid.

**Soy Bean, Black Wilson.** Being used on a larger scale each season for cover-crop. We recommend it as an excellent soil-builder. Widely used for hay and ensilage for feeding of cattle. Bus. (60 lbs.) \$1.50, f.o.b. Sewell, N. J.; \$2.00, freight prepaid.

**Sweet Clover, White Blossom.** Biennial. Used as a soil-builder. If plowed under it adds humus and nitrogen to the soil. The plant makes a rank growth. It is used some for pasture but very little for hay. Lb. 18 cts.; 10 lbs. \$1.30; bus. (60 lbs.) \$6.00, delivered. Bus. \$5.50, f.o.b. Sewell, N. J.

**Vetch, Hairy.** Used as a cover-crop, it is very valuable as a soil-builder. Can be sowed with either crimson clover, rye, or wheat. September is the best month for sowing. Lb. 20 cts.; 10 lbs. \$1.60; 100 lbs. \$14.00, delivered. 100 lbs. \$13.00, f.o.b. Sewell, N. J.

**Vetch, Spring.** This variety is used for spring sowing for cover-crop. Lb. 15 cts.; 10 lbs. \$1.20; 100 lbs. \$9.50, delivered. 100 lbs. \$8.50, f.o.b. Sewell, N. J.

**Wheat, Leap's Prolific.** Sowed for the grain and also for cover-crop. Bus. (60 lbs.) \$1.40, f.o.b. Sewell, N. J.; \$1.90, freight prepaid.

**Wheat, Spring, Marquis type.** For spring sowing. Bus. (60 lbs.) \$2.45, f.o.b. Sewell, N. J.; \$3.10, freight prepaid.

**White Dutch Clover.** Largely used in the sowing of lawns and in permanent pasture mixtures. Makes a small, compact, close growth. Lb. 95 cts.; 10 lbs. \$9.00; bus. (60 lbs.) \$53.00, delivered. Bus. \$51.00, f.o.b. Sewell, N. J.

Soy Bean, Black Wilson

# Annual and Perennial Flower Seeds

Postage prepaid on all Flower Seeds to your address

Sweet Alyssum

<b>ABRONIA umbellata grandiflora.</b> The pink Sand Verbena has large heads of rosy purple flowers. Makes a lovely carpet.....	Pkg. \$0 05	1/4oz. \$0 15	Oz. \$0 50

Any 13 10-cent packages (\$1.30 value) for \$1.00

Sweet Pea, Large-flowering Spencer

## CANNAS

We have made a specialty the past few years of growing quite a quantity of the most popular large-flowering varieties of Cannas. We offer both the bulbs and the potted plants (potted in 3½-inch pots and ready during May, June, and July) at very attractive prices.

**Apricot.** Light pink with buff-yellow base. Bright green leaves. Height 3½ feet.

**Canary.** Canary-yellow flowers. Green foliage. Height 3½ feet.

**City of Portland.** Beautiful pink flowers. Green foliage. Height 3½ feet.

**Eureka.** Creamy white flowers. Green leaves. This is the only really good white variety known. It is the rarest and most difficult color in Cannas. Height 4 feet.

**Gladiator.** Yellow flowers, splashed with red. Light green leaves. The bizarre, oriental coloring is most attractive. Height 4 feet.

**Golden Eagle.** Golden yellow flowers. Green leaves. Makes a fine massed bed, of a brilliant shade effective in sunlight. Height 4 feet.

**Hungaria.** Large pink flowers. Green foliage. Height 3½ feet.

**Kate Gray.** Deep orange flowers. Green foliage. Tall growing. Height 5 feet.

**Meteor.** Bright red flowers. Glossy green leaves, similar to President. A good bedding variety. About 3½ feet high.

**President.** Large, brilliant scarlet blooms. Glossy green leaves. This is probably the most popular variety because of its excellent habit and brilliant shining color. Height 4 feet.

**Red King Humbert.** Dark red flowers. Glossy deep brown leaves. Height 4 feet.

**Wyoming.** Large spikes of orange flowers. Dark bronze leaves. One of the tallest varieties suitable for back rows or the center clumps of large plantings. Height 6 feet.

**Yellow King Humbert.** Large, golden yellow flowers, dotted with red spots. Leaves are light green. An old timer but scarcely to be surpassed by more modern varieties which have challenged its supremacy. Height 4½ feet.

**BULBS:** 10 cts. each; 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1,000, postage or express prepaid. 5 cts. each; 50 cts. per doz.; \$4.00 per 100; \$35.00 per 1,000, f.o.b. Sewell, N. J.

**PLANTS:** 15 cts. each; \$1.50 per doz.; \$10.00 per 100, postage prepaid. 10 cts. each; 75 cts. per doz.; \$6.00 per 100, f.o.b. Sewell, N. J.

# Planet Jr. Garden Tools

## No. 300 Planet Jr. Seeder

Price, \$20.00

The No. 300 is rapidly becoming the most popular Seeder for market gardeners. It is a plate Seeder having three seeding plates, each with 13 holes, giving ample adjustment for any size seed. Adjustments quickly and easily made. Hopper removable. Many exclusive features combine to make the No. 300 easy running, dependable, and accurate. For use on muck soil and sandy soils.

## No. 100D Planet Jr. Cultivator

A light-weight, easy-running, inexpensive 5-tooth Cultivator for general cultivation in light soils.

Price, \$7.50

## No. 119 Planet Jr. Garden Plow

A complete, low-priced, all-round Garden Plow. 24-inch steel wheel with 1 1/4-inch rim. Light, easy running, and does fine work. Can be used for weeding, cultivating, furrowing, hilling, etc. The tools are oil-hardened and tempered and will wear almost indefinitely.

Price, \$3.85

## No. 12 Planet Jr. Double Wheel Hoe

Price, \$11.50

Planet Jr. Double Wheel Hoes are almost universally used by professional vegetable growers. They will straddle the crop both sides of the row at once and until the plants are 20 inches high. The No. 12 includes all the equipment usually required for gardening: A pair of hoes for shallow cultivating and weeding, 4 steel cultivator teeth for general cultivation, and a pair of plows for hilling, furrowing, etc. A long bolt and ferrule are furnished for changing to a single wheel hoe for later cultivation.
